

SPECIFICATION AMENDMENTS:

Please amend the specification as follows:

Page 7, line 8, through line 14, please amend the current paragraph as follows:

--When there interposer substrate 1 and the warp preventing sheet 3 are made of different materials, there are instances where it is not preferable to make their thicknesses equal to each other, but it is preferable to make their thicknesses different from each other, as shown by the dashed lines 3a and 3b, such that their coefficients of elasticity and/or coefficients of thermal expansion are equal to each other.--
